

Role

Alan is the Infrastructure Projects Manager for NSW and FNQ and is responsible for managing our contracts with the larger road building and civil contractors.

Alan's role is to ensure our surveyors are performing to the highest standards and to our clients' satisfaction. His role also includes acting as Project Surveyor on some of our smaller projects as well as providing field survey support, to our staff surveyors.

About

Alan has over 30 years experience in the construction industry.

His roles have included Field Surveyor, Senior Surveyor and Survey Manager for various construction companies (such as Multiplex and Concrete Constructions) and surveying firms (such as EGIS and Linke & Linke).

Alan has been with ESO since 2005.

Experience

At ESO, Alan has managed our involvement on such projects as:-

• Pacific Highway Upgrade	Thiess	\$200 mill
• Mackay Water	John Holland Tenix JV	\$120 mill
• Northwest Transitway	Leightons	\$325 mill
• Hume Highway Upgrade, Albury	AbiGroup	\$250 mill

Alan has also performs surveys and has been Project Surveyor on:-

• Tamworth-Dubbo	Gas Pipeline Easement
• Sydney University Footbridge	Abergeldie Contractors
• Wallgrove Road	BMD Major Projects
• Glebe Point Road Upgrade	GMW Urban

Before coming to ESO Alan's experience traversed the range of construction areas including:-

• Concrete Viaducts	Airport Drive, Sydney International Airport
• Pavement and earthworks:	Hong Kong International Airport
• High-Rise Buildings	World Square in Sydney CBD

Expertise

Alan is an experienced manager of survey resources typically co-ordinating around 10 survey crews.

Alan also has a thorough knowledge of 12D MODEL, Leica GPS Systems and Robotic Total Stations.
